

# SharePoint Designer 2007 Essentials

---

## Workshop

SharePoint Designer is a reincarnation of the previous Microsoft FrontPage product. In this workshop, the participants will learn how to create dynamic websites with custom development. This workshop incorporates a hands-on approach to learning. They will get a chance to practice some of the basic features right on a computer.

With SharePoint Designer 2007 you are able to edit HTML, create, and modify webpages that run SharePoint Foundation and SharePoint Server. SharePoint Designer a great tool and this Essentials course will provide the participants with a solid foundation to start building their SharePoint skill set.

---
